Choose
FastTrack

FastTrack your path

If you select FastTrack, you will have one attempt to take an assessment and must score 100% to pass. If you fail, you'll need to complete the full course.

If you select the full course, you'll spend approximately 30 minutes on the content and then have to pass an assessment.

Which path would you like to take?

Compliance made simple

How It Works

Why It Works

FastTrack includes **detailed reporting** that shows the number of employees completing the FastTrack version versus the full course.

This data-driven insight enables organisations to make **informed decisions**, demonstrate tangible savings, and validate the **value** of their training programmes to stakeholders.

If 100 employees take a 30-minute course and half use FastTrack (10 mins), you save 16 hours — **two full working days** — on just a single course.

Less time, same compliance

Smarter learning paths

Custom pass marks & limits

Seamless LMS integration

Compliance made simple

Results with FastTrack

FastTrack gives organisations the flexibility to tailor training to their needs, ensuring every course delivers value and genuine knowledge retention.

Key Benefits

- **Configurable settings:** set pass marks, limit assessment attempts, and maintain training integrity.
- **Time and cost savings:** reduce training duration without compromising compliance.
- **Personalised learning:** adaptive pathways based on pre-course assessments.
- **Continuous improvement:** refine training using employee feedback and performance data.
- **Proven impact:** enhance compliance, strengthen skills, and demonstrate measurable results.

FastTrack helps organisations streamline compliance training while maintaining quality, engagement, and measurable impact.

Demo

FastTrack transforms the way your organisation delivers compliance training: saving time, reducing fatigue, and maintaining high standards of knowledge and engagement.

Experience the benefits first-hand to discover how this adaptive training solution can streamline learning, improve efficiency, and deliver measurable results across your workforce.
